

CAPACITY: 800 ml

With Snap-On Lid: 800 ml

All containers have volume specification on the base.

MATERIAL

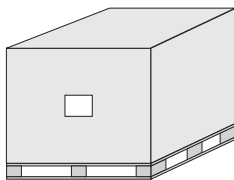

Pots and lids are produced in both random and copolymer polypropylene in grades approved for food packaging by FDA/BGA and which satisfy the demands of the EU directive 90/128 plus amendment of 1995-02-14 (Global migration).

DECORATION

Both in-mould labelling and post-mould labelling options are available.

CONTAINER/LID PACK

Pallet dimensions:
800 x 1200 x 1830 mm

Containers:
Per box: 2,961
Lids per box: 1,414

TEMPERATURE

HOT: The material chosen has a very good heat resistance, and the packaging is thus suitable for hot filling (product temperatures of 85-90 C). products are suitable for use in a micro wave oven.

Consult supplier if products have high fat/ sugar content.

COLD: The standard material for white/coloured products resists temperatures down to -20°C. Deep freezing below - 20°C will require a special resin which is available on request. Stock products in clear material might become brittle at temperatures below 0°C, but special resins are available on request for applications below freezing.

COLOURS

Pots are available in white and clear/transparent

HANDLE

No handle

QUALITY CONTROL

Pots and lids are tested to a number of quality criteria and BRC Category B and EFSIS accreditation is held.

- ✓ Function
- ✓ Lid seal
- ✓ Antistatic performance
- ✓ Stackability
- ✓ Impact strength
